

VIREN WANKHADE

DATA ANALYST | PYTHON | SQL | POWER BI | EXCEL

Pune, Maharashtra, India | +91-8637717144 | viren19271@gmail.com | linkedin.com/in/viren-wankhade | github.com/viren689

PROFESSIONAL SUMMARY

Data Analyst with a Bachelor of Computer Applications specializing in Data Science & Machine Learning, with hands-on skills in Python, SQL, Power BI, Excel, Pandas, NumPy, statistics, data cleaning, EDA, visualization, and business analysis. Also experienced in financial operations at HDB Financial Services, managing approximately 700 customers, 20 leads/month, and a 15 lakh monthly target.

TECHNICAL SKILLS

Programming	Python, SQL
Data Analysis	Pandas, NumPy, Data Cleaning, EDA, Data Validation, Statistical Analysis
Visualization	Power BI, Excel, Matplotlib, Seaborn, Plotly
Analytics & Tools	KPI Reporting, Business Analysis, Customer Analytics, Dashboard Development, MySQL, Git, GitHub, VS Code

PROFESSIONAL EXPERIENCE

The Developers Arena — Data Science Intern | July 2026 – Present

- Developed project-based solutions covering data analysis, visualization, statistics, preprocessing, machine learning, and business analytics.
- Performed data cleaning, exploratory analysis, feature engineering, model development, and visualization using Python.
- Used Git and GitHub to organize, document, and maintain project work.

HDB Financial Services — Sales Officer | December 2025 – June 2026

- Managed relationships and service activities for approximately 700 customers.
- Generated and followed up on approximately 20 leads per month and worked toward a monthly business target of approximately 15 lakh.
- Analyzed customer requirements and financial profiles and tracked sales activities using Excel and internal systems.

Seven Mentor Pvt. Ltd. — Data Analyst Intern | June 2025 – December 2025

- Completed a Data Analyst internship with practical exposure to Python, SQL, Excel, Power BI, data analysis, and visualization.

PROJECTS

Complete Business Analysis — Week 8 | Python | Pandas | NumPy | Statistics | Visualization

- Conducted an end-to-end business analysis from raw data preparation through insights and actionable recommendations.
- Analyzed business KPIs, customer behavior, product performance, and regional patterns to support decision-making.

Customer Sales Analysis — Week 5 | Python | Pandas | Data Aggregation | Pivot Tables

- Analyzed customer purchasing patterns, top customers, regional performance, and sales trends using grouping, aggregation, merging, and pivot tables.
- Created business-focused summaries to identify valuable customers and sales opportunities.

Interactive Sales Dashboard — Week 6 | Python | Seaborn | Plotly | Dashboarding

- Built an interactive dashboard covering sales trends, customer segmentation, and product performance.
- Created multiple statistical visualizations and interactive charts to communicate business trends.

Statistical Business Analysis — Week 7 | Python | Statistics | Hypothesis Testing | Regression

- Performed descriptive statistics, correlation analysis, hypothesis testing, confidence-interval analysis, and regression.
- Translated statistical findings into business-focused interpretations and recommendations.

Sales Data Analysis — Week 3 | Python | Pandas | Data Cleaning

- Loaded, cleaned, explored, and analyzed sales data to calculate revenue, product performance, and key business metrics.
- Produced a formatted analytical report with documented findings.

EDUCATION

- Bachelor of Computer Applications — Data Science & Machine Learning | Kesharbai Lahoti College, Sant Gadge Baba Amravati University | 2021–2024 | CGPA: 6.9/10
- Higher Secondary (12th) — Butle College, Digras | 2021 | 85%
- Secondary (10th) — Dinbai High School, Digras | 2019 | 77%

CERTIFICATIONS

- Data Science — Seven Mentor Pvt. Ltd. | Python | SQL | Power BI | Machine Learning | Generative AI
